1. Before you start

- Check the contents: **MINI*PIX*** device, memory stick with the software, drivers and documentation, Quick Start Guide.

- **Warning: the sensor is very fragile – DO NOT touch it or clean it under any circumstances and avoid any mechanical shock !**

2. Installation of the *PIX*ET_PRO software

- Connect the device to the computer.

- Connect the attached flash to the computer.

- Install the device drivers. On Microsoft Windows run **Drivers/setup.exe** and follow the instructions. On Mac OS X run **Drivers/D2xxHelper_v2.0.0.pkg.** On Linux, it is not necessary install any special drivers.

- Run **Pixet/Windows/setup.exe** for installation of *PIX*ET_PRO on Windows.

- Run the *PIX*ET_PRO software from Start Menu shortcut on Windows.

- For information how to use *PIX*ET_PRO refer to the corresponding manual in **Documentation/Pixet Pro Users Manual.pdf**

For questions and support contact us at **support@advacam.com**

ADVACAM s.r.o.
U Pergamenky 1145/12, CZ 170 00 Praha 7
Czech Republic
